

UPLANDS MATRICS

SHINE BRIGHT IN 2025

It is with enormous pride and great celebration that we announce the IEB NSC results. Our Grade 12 cohort of 2025 has delivered an outstanding set of final examination results, surpassing expectations.

This cohort is often referred to as the College's "Covid cohort" - pupils who began Grade 8 during a time of unprecedented disruption. Their early high school years were shaped by online learning, hybrid classrooms and constant change. Yet, rather than being

defined by these challenges, they rose above them.

We are especially proud of the academic momentum they built throughout their Grade 12 year, culminating in their strongest performance at the final hurdle. Their results reflect not only academic ability, but also perseverance, discipline and a commitment to learning - they embody the true spirit of lifelong pupils.

These exceptional outcomes are a celebration of Uplands' academic

programme and deep commitment to academic excellence. A handful of pupils finished inside the top 1% of pupils in the country in certain subjects.

Nicole Cooper was in the top 1% for Computer Applications Technology, Life Sciences, Mathematics and Physical Sciences. Erin Durek - Business Studies, Dramatic Arts and Life Orientation. Megan Easton (Mathematical Literacy), Benjamin Loon (Geography) and Gabriel Buchanan (French Second Additional Language) also achieved this feat.
