

Mr J Kuriakose,
School Principal.

CALVIN COLLEGE DOES IT AGAIN – ONLY BETTER!

Calvin College is proud that our 2025 Matric class achieved a 100% pass rate, with 109 distinctions. Our bachelor passes increased to 94%, placing us at number one in our circuit. We congratulate everyone on their results! Many learners from Grade R to 12 also received certificates and trophies at our awards ceremonies. Learners participated in many activities, including sport, culture, Olympiads, career expos, fundraising for the popular Gauta BMX Club, educational trips, World Read Aloud Day, our Matric farewell, Valentine's

Day, Spring Day and many more. We strongly believe in community service, and donated a large amount of non-perishable food and kitchen appliances to Angels of Planet Earth. Youth Day and Women's Day were also celebrated with a number of events. Calvin College boasts a brand-new and fully-equipped Science Lab, and our Robotics programme will also be expanded to all Grade Eight learners in 2026. We thank our board of directors, the Department of Basic Education and our parents for their continued support and look forward to 2026.

Handover of donations to Angels of Planet Earth.
